

## ACKNOWLEDGEMENT

*The Environmental and Natural Resources Accounting (ENRA) Subprogramme wishes to acknowledge the invaluable contributions of the people behind the compilation of the asset accounts. Special thanks is due the United Nations Development Programme for the funding support given to the Integrated Environmental Management for Sustainable Development (IEMSD) Programme in which ENRA is part of. It is also with deep gratitude that we acknowledge the technical contributions of all the consultants and technical working group members in coming up with the compiled resource accounts. It is also worth mentioning the contributions made by the various sectoral specialists and core group members in the supervision and guidance of the outputs of all the TWGs. Likewise, the ENRA would like to acknowledge the important contribution of the technical assistants who worked tenaciously on all the details concerning the accounts.*
