* Not applicable

** Data has no sex-disaggregation.

*** Non-gender crimes include malicious mischief, theft, qualified theft, estafa, robbery, robbery with homicide and others.

1/ Data is cumulative as of December 2008.

2/ Pertains to the women detained at the BJMP jails.

3/ Preliminary, based on DTI business reports; Detailed disaggregation provided in line with this year's theme of Women's Month:

"Go Negosyo: Babae, Yaman ka ng Bayan."

4/ Output of the NSCB UNDP project on the Development of a Methodology and Estimation of Gender Development Index (GDI) at the Local Level. GDI is a measure of human development that is adjusted for disparities between men and women. Patterned after the human Development index (HDI) framework, the GDI has the following components : health, education and index

5/ The NSCB Technical Staff formulated the Gender Equality Ratio (GER) to be able to identify who benefits more from development. The GER is the geometric mean of the ratios of the GHI, GEI, and GII of women over men. A GER with value greater than 1 indicates that women have an advantage over men in terms of development.
